PROFESSIONAL PROFILE

Versatile and results-driven Software Engineering enthusiast with a strong foundation in Java programming, Object-Oriented Programming (OOP), and an understanding of Agile methodologies. Highly adaptable and committed to contributing innovative solutions to complex software development challenges. Seeking opportunities to further expand expertise and make a meaningful impact in the world of software engineering.

EDUCATION

New York City College of Technology Brooklyn, NY

Bachelor's of Technology, Computer Systems Technology

📅 06/2023

Associate in Applied Sciences, Computer Information Systems

📅 06/2021

- Dean's List Spring 2022 and 2021
- Overall GPA 3.3 / 4.00

Relevant Coursework:

- | | |
|---------------------------------|--------------------------|
| -Object-Oriented Programming | -Discrete Structure |
| -Object Oriented System Designs | -Data Structures |
| -Database Systems Fundamentals | -Application Development |
| -Data Structures and Algorithms | -Software Dev .Net Fram. |
| -Dynamic Web Dev(Servlet/JSP) | |

TECHNICAL SKILLS

Programming Languages: Java, SQL, HTML, CSS, Lua

Methodologies: Agile, Object Oriented Programming, Waterfall

Software: Photoshop, Excel, Microsoft Office suite, Blender

Eclipse, Netbeans, visual studio

Collaboration Software: Microsoft Teams, Github, Trello

PROJECTS

[Dynamic Web Dev \(JSP/Servlet\) Final:](#)

IDE: NetBeans

- Built Asteroids objects by querying database and using the Principles of OOP
- Used JDBC to connect to provided database for retrieval of asteroids data
- Used HTML & CSS to design the webpage

[APP Dev with Database:](#)

IDE: Eclipse

- Built Network objects by querying provided network database
- Created GUI to input the network to be built
- Display the built network information on the GUI

EXPERIENCE

CUNY School of Medicine

New York, NY

CUNY Office Assistant

02/2023 - 07/2023

- Created/edited excel spreadsheets for improved data organization
- Utilized Adobe Acrobat for form creation
- Arranged seamless virtual meetings
- Managed requisitions via CUNYFirst website

Family Dollar

Brooklyn, NY

Assistant Manager of Customer Service

06/2021 - 03/2023

- Organized store merchandise for easy access.
- Supervised team for smooth daily operations.
- Worked with Point of Sale system
- Maintained 95% customer satisfaction

New York City Department of Social Services

New York, NY

IT intern

07/2022 - 08/2022

- Queried/edited Oracle database for required data.
- Built Excel trackers via ODBC connection.
- Used Jira/Confluence for issue tracking.
- Participated in daily SCRUM meetings
