

**Temitope Moses James**  
(347) - 415 - 9978  
[mosesjames2000@gmail.com](mailto:mosesjames2000@gmail.com)

Computer systems graduate with intermediate experience in Java programming, proficiency in Object-Oriented Programming (OOP), and an understanding of the AGILE process and Oracle SQL database. Eager to contribute to innovative software development projects and further expand my skills.

## **Education**

**New York City College of Technology**      **Brooklyn, NY**  
Associate in Applied Sciences (AAS)  
Computer Information System (Software Development)(BTECH) GPA: 3.385

## **Course Work**

\*Problem Solving with Computer Programming \*Programming Fundamentals \*Object Oriented Programming with JAVA. \*Database Systems Fundamentals \*Application Development with Databases  
\*Data Structures and Algorithms

## **Certification**

- EC AWR 173 0110 Information Security Basics (TEEX) [Certificate](#)
- Great Learning Java Programming (Great Learning) [Certificate](#)

## **Technical Skills**

**Programming:** Java, SQL, C++  
**Software:** Photoshop, Excel, Inkscape, Microsoft Office.  
**Collaboration tools:** Microsoft Teams.

## **Work Experience**

**CUNY School of Medicine (CUNY Office Assistant)**      **Manhattan, NY**      01/2023 - present

- Managed workplace internal and external communications, resulting in improved coordination.
- Created and edited excel spreadsheets, improving data organization and accuracy.
- Utilized Adobe Acrobat to create and edit forms, streamlining document handling
- Managed students exams using the LEO curriculum system.
- Set up and managed zoom meetings , ensuring seamless virtual interactions.
- Used cunyfirst to manage requisitions.
- Utilized Redcap to create and manage surveys.

**Family Dollar (Assistant Manager of Customer Service)**      **Brooklyn, NY**      06/2021 – 03/23

- Maintained a customer satisfaction rate of 95% through outstanding service
- Organized store merchandise for customer easy access
- Supervised team members to ensure smooth business day operation

**New York City Department of Social Services (IT intern)**      **Manhattan, NY**      07/2022 - 08/2022

- Queried and edited existing queries to retrieve needed data from Oracle database.
- Made Excel trackers by connecting to Oracle database using ODBC connection to provide ease of access to requested data
- Used Jira and Confluence to link identified development Issues to help developers identify potential bugs in the program
- Used SQL database data to create pivot tables and generated data graphs on Excel using ODBC connection to allow visual representation of data

- Participated in daily SCRUM meetings to provide updates on assigned tasks.

### **Projects**

- App Dev with Database Final[Created,Stored and retrieved objects from database to display on webpage) [Java Final](#)
- Object Oriented Programming Project (Created a basic GUI featuring some common banking transactions) [Project](#)
